

GB2336407

Publication Title:

Hydrodynamic bearing including means for monitoring the capacitance between the rotor and stator of hydrodynamic bearing

Abstract:

Abstract of GB2336407

A hydrodynamic bearing which includes both a Shaft (50) and a rotor rotating relative to one another and defining a hydrodynamic bearing in the gap (58) between the relatively rotating surfaces (60, 72). Data supplied from the esp@cenet database - Worldwide
